

Prosek Security specialises in the delivery of innovative services to public and private sectors of our industry. We work closely with all stakeholders to provide workable solutions whilst ensuring compliance to applicable statutory and regulatory requirements.

Director, Management and Employees are all committed to improve the performance of the company through:

Establishment of objectives and targets to ensure continual improvement aimed at effectiveness and customer satisfaction.

Implementation, review, maintenance and continual improvement of our management system and practices to meet business needs, AS/NZS 9001, client and other regulatory obligations.

Recording and investigation of noncompliance's within our system and the implementation of appropriate corrective action.

Engagement of employees and subcontractors that are appropriately qualified and competent to perform their duties.

Planning and provision of appropriate resources, including people, training, plant equipment and infrastructure, to achieve business objectives, fulfil client's expectations and maintain the management system

Working with suppliers to ensure all products utilised are fit for purpose.

This policy is reviewed as part of Management Review.
